01 HERO

EYEBROW	Talent delivery engine
---------	------------------------

Talent, in motion.

Human-led delivery, from requirement to day one.

02 PROOF

EYEBROW

Delivery to date

The numbers behind the work.

136 Roles closed

72% Mandate closure

91% Offer → joining

60% Repeat clients

Figures reflect delivery to date and are verified internally.

03 THE GAP

Hiring doesn't end at the shortlist.

The real outcome is getting the right person to day one.

FUNNEL LABELS

Requirement → Shortlist → Interview → Offer → Day one

Every stage after the shortlist is where hiring quietly leaks.

04 THE MODEL

EYEBROW

How we work

One journey. One owner.

Nine stages, with no handover between sourcing and joining.

01 Requirement — Understand the role before the search.

02 Map — Locate where the talent actually sits.

03 Source — Approach it directly.

04 Qualify — Test fit across five dimensions.

05 Submit — Send only what stands up.

06 Prepare — Brief before every interview.

07 Engage — Stay in contact throughout.

08 Offer — Close on what matters to them.

09 Join — Follow through to day one.

The resume is only the beginning.

Five dimensions decide whether a hire holds.

Capability — Can they do the work at this level?

Relevance — Is the experience genuinely aligned?

Motivation — Why this move, and why now?

Expectations — Are pay, role, location and notice aligned?

Risk — What could stop them from joining?

We stay involved until day one.

Eight touchpoints. Zero silent gaps.

TOUCHPOINTS Prepare → Interview → Debrief → Offer → Engage → Join

EYEBROW What we take on

Five ways in.

Talent acquisition CORE

Matching capability, motivation and expectations to the role — not keywords to a resume.

RPO EMBEDDED

End-to-end recruitment support, run as an extension of your team.

Technology SPECIALIST

Specialist technology hiring for teams that need depth, not volume.

Non-IT BREADTH

Hiring across business and corporate functions.

US & India MARKETS

Delivery across both markets, on one process.

The strongest proof isn’t the first mandate. It’s the second.

- 25 Companies served
- 15 Clients with more than one mandate
- 65+ Hires across our three deepest relationships

Each mark is a company. The filled ones came back.

LOGO STRIP

[TO CONFIRM – Approved client logos]

Human-led today. Increasingly intelligent tomorrow.

Technology should remove administration — not human judgement.

LABEL

Roadmap — not live today

ROADMAP ITEMS

Talent mapping, Candidate matching, Risk detection, Engagement, Interview preparation

Answered.

CLIENTS

What roles do you support?

Technology and non-IT roles across business and corporate functions, in the US and India.

How do you find candidates?

We map where the talent sits and approach it directly, rather than waiting on applications.

How do you judge fit beyond the resume?

Five dimensions: capability, relevance, motivation, expectations and risk.

What do you need from us to start?

The role, the interview process, and who decides. Mapping starts from there.

How quickly can you send qualified candidates?

[TO CONFIRM – Turnaround commitment – confirm before publishing]

How does your fee structure work?

[TO CONFIRM – Commercial terms – confirm before publishing]

What happens if a hire doesn't work out after joining?

[TO CONFIRM – Replacement terms – confirm before publishing]

Can you support ongoing hiring through RPO?

Yes. RPO covers end-to-end recruitment across a continuing hiring plan.

Can you handle confidential or hard-to-fill roles?

Yes. Mapping and direct approach are built for roles that don't respond to advertising.

How do we get started?

Send us a mandate. One consultant owns it from requirement to joining.

CANDIDATES

Do you charge candidates a fee?

[TO CONFIRM – Candidate fee policy – confirm before publishing]

How do I apply?

[TO CONFIRM – Application route – confirm careers page or inbox]

What happens after I send my resume?

If there is a match, a consultant talks to you about capability, motivation and expectations before anything is submitted.

How will I know whether a role fits?

You get the role, the team, the process and the expectations before you interview.

Is my information kept confidential?

[TO CONFIRM – Data and consent policy – confirm before publishing]

Can I be considered for more than one role?

Yes.

What support do I get during interviews?

A briefing before each interview and a debrief after it.

Who contacts me with updates?

The consultant who qualified you stays with you through to joining.

What if I'm not selected?

We tell you where the process ended.

Can I send my resume without an open role?

Yes.

11 CLOSE

Give us a mandate. Let the delivery prove the model.

One role is enough to see how this works.
